

LUISA WAGNER | PROJECT MANAGER

AZO Anwendungszentrum GmbH Oberpfaffenhofen

Luisa Wagner is a Project Manager at AZO and is responsible for managing the two European Acceleration programmes by the European Commission, the Copernicus Accelerator and the E-GNSS Accelerator, including the stakeholder management of 20 high-tech regions of the European Satellite Navigation Competition (ESNC). Both programmes promote the user uptake of Copernicus and Galileo/EGNOS by offering a customized business development scheme for start-ups, to accompany them from the generation of a business idea to its full commercialization.

At CAPIGI 2018, she will speak about the business opportunities for smart agriculture and related application fields provided by both EU Acceleration programmes and the two innovation competitions organised by AZO, the European Satellite Navigation Masters (ESNC) and the Copernicus Masters.

Prior to her current role, Luisa worked in the aviation industry at Miles & More / Lufthansa and at Serviceplan, specializing in the marketing management for aviation stakeholders.
