

OLIVIER BECU | APPLICATION PROJECT MANAGER

European Space Agency – Business Application programme

Bio

Olivier Becu is an Application Project Manager (TIA-API), contracted by Telespazio Vega, for European Space Agency Business Application programme, in The Netherlands.

He holds a MSc in Telecommunications and Remote Sensing and has been working as technical expert, project manager and team leader in the space private sector : satellite studies, on-board software development, launch operations and applications. Since 2007, he supervises ESA BA Demonstrations Projects with European companies, mostly in the fields of agriculture and energy, supporting the roll-out of commercial services, leveraging on satellites, for earthly needs.
